

Angus, R. B.

June 19, 1882

R. B. Angus to James J. Hill.

The Dominion Government actually has issued a circular such as Manvel describes. States that the exclusion arrangement will hinder rather than favor immigration. Has been promised an explanation. Van Horne complains of delays in the carrying out of his orders for railway supplies. Angus believes that the [C.P.] staff is not "properly organized in the purchasing department especially." Wishes his road had a "first rate and competent man like Manvel at Headquarters." Has

told Stephen and Smith that he is not satisfied with the way things are going.

General correspondence by date.
