

Canadian Pacific Road

March 6, 1883

Hill to J. Kennedy Tod "Personal"

Re engraving of the new bond. Our legislative session is now over without any hostile legislation "and we can run as we are for ~~the~~ two years longer." We have had the most severe winter I have seen for more than 20 years. The inability of the Canadian Pacific Co. to carry out its undertaking in regard to the Manitoba Southwestern has been a very great inconvenience to us, inasmuch as it ties up nearly \$1,250,000.
