

Coal - Montana

November 6, 1888

Hill to T. Mitchell, Toronto .

"the country from the Belt Mountains in Montana north to the International boundary line is all more or less a coal field with coal of very superior quality, and, under these circumstances, it would be carrying coals to Newcastle to attempt to haul coal from north of the boundary into the United States."

JJH Letterbook, 4/12/88 - 2/7/89, p. 542
