

Granby Consol. Mining, Smelting, July 22, 1904
& Power Co., Ltd.

Hill to Lewis Herreshoff

"In regard to the Granby copper mine, I beg to say that I have not bought any shares of this stock for the simple reason that I have as a rule always avoided having any interest in business enterprises along the line of our railway. However, you will be glad to know that a few of my friends among others Mr. D. Willis James, of the old firm of Phelps, Dodge & Co. in N.Y., Mr. Geo. F. Baker have purchased a large interest in the property, which with other friendly holders will enable them to control the property. It is one of the greatest properties in the whole country." I saw Lenox Mr. Samuel Hill

and my daughter]Marie] and the little girl
you mention, also a boy n years of age. The
little girl now is nearly as tall as I am.
