

Irrigation

Oct. 24, 1903

Paris Gibson to Hill

Re JH Hill's speech at the irrigation meeting in Bismarck. "I was particularly impressed with your statement of the aid contributed to the irrigation movement by yourself and a few other prominent railway men of the country. I think the people generally should know how much you have done for the adoption by the Nation of its irrigation policy." "It is found that in 19 cases out of 20" here in Cascade Co. & other parts of northern Montana "the lands [under the Desert Land Act] have been acquired by perjury."
