

Minneapolis - Flouring mills

June 2, 1880

Hill to Jno. Bensley

We are about to commence a canal for the improvement of our Water Power at Minneapolis. "The reputation of Minneapolis Flour throughout the World is well established and a mill at that point would not be under the necessity or expense of establishing its Brand in the markets of the world. We could give you any sized lot and any amount of Power you would require."

St.P.M.& M.Ry. LetterBook 1(3/5/-10/2/80)p.382
