

Northern Securities Co. December 2, 1901

C. W. Bunn to Hill

"It comes to me from several sources that Van Sant did not start in until after he had received assurances of support from Railway Companies. The Dispatch is being run by N D Munn on this question and I dont think he has gone in without Mr Lowry's approval. Some representatives also of the Milwaukie have been talking. [Alexander ?] MaKenzie is doing great work and west of Minnesota, I hear of no special agitation."
