

Rogers, A.B.

May 31, 1886

Hill to J.S. Kennedy

Sends [engineer Rogers'] report, looking out the line from Helena to Butte for the Montana Central Road. "If this line can be built as the report indicates, it is of the very greatest importance to our enterprise & will result in over \$1,000,000 less cost of the Butte than I expected for the grade named."
