

St. John River

January 28, 1904

J. J. Hill to John Cadwalader.

"Last year I acquired the ownership of the lower fifteen miles of the Saint John, which carries it above the Old Indian portage, and have the lease for several years of the upper portion. That which I own covers three quarters of the good water and six or eight rods find plenty of room, giving me all the fishing I have any use for."
