R. B. Angus to Hill

"In regard to your C.P.R. stock I am satisfied it is the feeling of Stephen Someth and myself that you should just do as may be most in accordance with your own inclination and for your own advantage and you may rely upon this, that your withdrawal from the Enterprise would not be allowed in the slightest degree to interfere with our unanimous action

in the future. We are all aware that your connection with us, may sometime place you in an embarrassing position in your dealings with other Railways and the motive for your action would be understood and appreciated."
