

1884, March 1

J.S. Kennedy to Hill

Manitoba stock dropped on Thursday and I could not understand the cause - traced it out and found that Duncan McIntyre came down from Montreal on Wed. with an order from Donald Smith for 2,500 shares of his stock which was immediately thrown on the market! He tried to conceal his movements by having his brokers who were really the sellers appear as buyers but I have been too long in the Street to be fooled in that way. It is too bad but what are we to do? Mr Stephen has never answered my letter written him the

latter part of January about his Manitoba stock
and I have not heard fr him either directly
or indirectly since that time.
