

Wickes, Montana

November 12, 1903

Carbon. [Hill] to R.N.Dickman.

"I am glad that you at last say something favorable about the property at Wickes, and I hope by next Spring we will have sufficient development work done to warrant the building of a spur track up Clancey Creek. I have given Mulvahill the necessary instructions to proceed with the work, and am anxiously awaiting your detailed report."
