

Wright, C. B., Pres. N.P.R.R.Co. May 9, 1878

Norman W. Kittson to Wright, Philadelphia
Regrets that Sargent did not think difficulties here of sufficient importance to mention them to you. I consider them very important, if a friendly settlement of all our matters is desired. George Stephen of Montreal was here a couple of days ago and considered the subject & concluded that an early meeting with you was necessary. Suggest a meeting in New York City; early one necessary. Conflicting limits of the land grant comes up in June and is a major issue for both companies.
