Gentlemen: Attention: Mr. T. B. MacKeever

Thank you for your letter of April 26 enclosing Government Bill of Lading # 10T R 1-16775 - 44, together with instructions for the completion of same.

Our household goods arrived on May 18 and I am therefore returning a copy of the original Bill of Lading. Delivery service at destination was not by the government and it was necessary to pay \$30.90 to the Ballard Transfer Company of St. Paul.

I realize that it must be difficult to move household goods on any carriers these days, but I hardly expected to receive this shipment in such a damaged condition and many items beyond repair. Comment of the Ballard Company was that this was the most damaged shipment they have handled. They have cooperated and immediately placed claim with the carrier, the Chicago Milwaukee Railroad.

I believe that some investigation should also be made from your end to find out why some of the better dishes and furniture were not adequately packed. Some boxes containing our best chinaware came without any wrappings. Two mahogany dining room chairs with arms had frame protection but were not securely anchored and thus both chairs were cracked in half. Our friends in Berkeley wrote us they did not like the attitude of the drayage men who handled the furniture there and this may have been one of the causes for this unnecessary damage.

Very truly yours,

Earl Tanbara

Dear Friends:

We are deeply troubled by a widespread opinion throughout our country that our fellow citizens of Japanese ancestry are innately deceitful and are unworthy of the citizenship which our constitution has guaranteed them.

In order that those who are sensitive to the injustice of social and group condemnation may be in a position to counteract this particular false opinion, we would like to share with them our experience with these Americans of Japanese ancestry, and to bear our testimony to the integrity of their character and loyalty to our nation, as well as to the affection with which many of us regard them.

We have found our Japanese-American friends, through many years, as trustworthy and reliable as other human beings. Their intellectual ability has been frequently attested by numerous examples in our universities. Public records show a lower percentage of crime amongst them than is shown in the general population, and their names are conspicuously absent from public relief rolls.

We feel that we have much to learn from them. During the present evacuation we have seen them accept the discrimination as a part of their duty to this country. We have seen them give up their jobs, homes, all their hopes and plans for the future with a minimum of resentment. We have seen them patiently waiting for days which they cannot predict nor fashion.

It is our hope that the readers of this letter will give their best thought to the problem of our right relations with the Americans of Japanese ancestry, and will aid in building up a fairminded attitude in their communities. Such development of public opinion will help to forestall the spread of the monstrous suggestion of disfranchisement. The precedent set by such an action would reflect on our democracy, our treatment of Negroes, Orientals, and all minority groups. To the countries who oppose democracy, it would be fuel for their fires.

At the same time, if the opportunity opens for private resettlement, careful thought should be given to providing an opportunity to find friendly homes and suitable employment for those now in government assembly centers. This is work which ought to begin now; for not only will returning soldiers have the first choice in jobs after the war, but it is likely that prolonged internment will mean a serious psychological and moral deterioration in the lives of these people.

In sending this letter we are keenly aware of our failure to mould public opinion sufficiently to save the Japanese-Americans from their present serious predicament, but we crave your understanding help in order that, in the words of John Woolman, you and we may become "fellow-feelers with the afflicted".

Yours in fellowship,

Notice to Consignee

Before the Carrier will deliver to you the property covered by the attached Government Bill of Lading, you must execute "Consignee's Certificate of Delivery" (at foot of original bill of lading) by entering in the space provided (with ink or indelible pencil) the name of the delivering carrier, the total (gross) weight received, the date of delivery of the property to you, and your signature; also indicate whether or not the delivery service from Carrier's freight depot at destination to your residence or place of business was performed by the Carrier.

If the property is in a damaged condition, or any articles missing so that delivery in full cannot be made to you, detailed explanation must be shown on the reverse side of the original and memorandum copies of the bill of lading. The explanation should set forth the approximate cost of replacing or repairing the damaged parts or articles and the value of missing articles.

The original bill of lading should then be surrendered to the delivering carrier; one memorandum copy returned to Transportation Operations Officer, War Relocation Authority, Whitcomb Hotel Building, San Francisco, 3, California, showing date of delivery of shipment to you; and one memorandum copy retained for your file, if desired.

Gentlemen:

We refer to our conversation of today, and the carload shipment of household goods consigned in our care from Bekins Household Shipping Co., of Oakland, California, moving in cars Erie 97495, and in which there has been some concealed damage.

We have received a report from Mrs. Earl K. Tanbara, 218 South Avon Street, St. Paul 5, Minnesota - Telephone Ce. 3741, that there is considerable damage to her shipment. This shipment moved under Government Bill of Lading No. 10RRL-16775-44, issued by the Ware Relocation Authority of San Francisco, California.

Would you please call Mrs. Tanbara at the above telephone number and make arrangements for an inspection.

Thank you.

Yours very truly,

Dear Netty Jane and Dean:

Thank you for your promptness in sending the silver polish, I appreciate it very much for I like Sparklene the best of any kind I have used. I am enclosing a dollar for the order. My silver looks grand after using it. With the coal dust from the furnace and I guess the fumes too, silver gets tarnished so much around here.

My sister Elsie and Jack from Chicago are visiting us this week. It seems good to see her again. They are at Emi and Howard's house now visiting with Judy and Davey who have grown so much since Elsie saw them last. Elsie may come here to live if Jack is inducted.

I haven't heard from the W.R.A. since I wrote them in February. I guess it takes them quite awhile to check and make arrangements, but I have just written to Ruth Kingman in Berkeley to see if there is anything further I can do. I surely would like to get settled but since it has taken this long, I guess I cannot hurry it too much now.

With all good wishes to you. I haven't forgotten the cheese I promised to mail you. Will try to send it sometime soon.

Love,

Ruth

Please let me thank you for the "Sunset" magazines you kindly mailed from time to time. Earl and I find them our only link with the West, that is, outside of our dear friends. How is your garden? It is still a little too early to do anything here. Decoration Day is the traditional time to start gardening here.

Gentlemen:

On February 4, I mailed your office three copies of WRA Form No. 156 with the information you requested regarding the shipping of our furniture and personal belongings from Berkeley, California to St. Paul.

To date I have not heard from you and am anxious to know when our furnishings will be here in order for our parents in Camp to resettle.

Thanking you for your early attention.

Very truly yours,

Dear Sir:

I have just received a letter from Mrs. Ruth Kingman, executive secretary of the Committee on American Principles and Fair Play stating that the War Relocation Authority will ship furniture and personal belongings of Japanese Americans who evacuated from the Western Defense command but did not go to Camp.

We formerly lived at 1728 Dwight Way, Berkeley, California and after being evacuated resettled with permission to this address without going through a relocation center.

I am enclosing your form WRA-156 which I just received and which I have filled out in detail describing the goods to be forwarded. I trust that I have given all the necessary data. If you need additional information may I suggest that you call Miss Edith Jones, 2819 Benvenue Avenue, Berkeley, California (telephone Berkeley 1507J) and talk with her. She has a complete inventory of our goods and is looking after our interests.

Thank you for your early attention.

Yours very truly,

Earl Tanbara

IN re; CAR ERIE 97495 - shipped 5-2-44
BEKINS HOUSEHOLD SHIPPING CO.
OAKLAND, CALIFORNIA

Gentlemen:

We refer to the above carload shipment and the lot consigned to Mr. Earl Tanbara, 218 South Avon Street, St. Paul 5, Minnesota.

There has been considerable damage to Mr. Tanbara's household goods, and we called your railroad for an inspection. The inspection was made and your representative requested Mr. Tanbara to have estimates made on the repairs and submit same to you.

In attempting to obtain the estimates we find that furniture and porcelain repair workers will not go out to the residence and make an estimate without charging for their time and this, of course, means an additional expense.

We have attempted to verify the fact that estimates are actually required, as to our knowledge this is the first time we have been requested to furnish estimates on repairs when the shipment was specifically released to the railroad at a valuation of 10¢ per pound per article. We understand the inspection and request for estimates was made by some one other than the regular local inspectors, and for this reason we have been unable to verify the fact that estimates are positively required.

Our customer has been very patient up to this time, however, the inspection was made the early part of May, and under the circumstances we have been unable to proceed with the repairs, and settlement.

Will you please investigate and favor us with your reply at your first opportunity. Thank you.

Yours very truly,

In re: Shipment 5-2-44
Car Erie 9 7 4 9 5
Shipped by Bekins Household Shipping Co.
Oakland, California

We enclose herewith and return to you letters written you by the United States Department of the Interior, War Relocation Authority, San Francisco, California, stating your goods were well packed and crated and left California in good condition and without any exception.

We have not received a reply from the Milwaukee Railroad to the letter we wrote them recently, a copy of which was mailed to you. Under the circumstances, we suggest you go ahead have the furniture repairs made by a reputable concern, obtain the paid repair bills in duplicate, and we will assist you in filing claim with the Milwaukee Road.

We sincerely regret the delay in this, and assure you of our cooperation.

Yours very truly,

Dear Mr. Tanbara:

1. We enclose herewith warehouse receipt and identification card. Read warehouse contract and check over list of your goods, notifying us immediately of any errors or omissions.
2. Sign and return identification card. We will permit withdrawal of your goods only on written order signed by one of the parties whose signature appears on this card. This is for your protection.
3. Your goods are NOT INSURED against fire by us unless we receive instructions from you in writing to do so. We charge five cents per hundred dollars per month.
4. You will be billed monthly, and our charges are due before the first of the following month. Storage charges are cumulative, and experience has taught us that it is easier to take care of such charges monthly than to let them accumulate. If you are unable to pay the full first month's bill, pay the first month's storage plus a portion of the hauling, packing and handling charges.
5. We also ask that you kindly advise us of any change in your address.
6. It is our aim to accommodate our customers and render the very best service possible, and if we can assist you in any way in your storing, moving or shipping problems, do not hesitate to let us help you.

Assuring you that we appreciate your business, we are

Gentlemen:

We refer to your letter of the 26th of June addressed to Mrs. Earl Tanbara, 218 S. Avon Street, St. Paul 4, Minnesota, wherein you disallow claim for damage, and give your reasons for so doing.

In the first place we will be pleased to file claim in our name for the account of Mrs. Tanbara, as we feel that Mrs. Tanbara has been very patient and fair in this matter.

Secondly we experienced considerable difficulty in obtaining the required information prior to filing claim, due to the fact that under present conditions it was almost impossible to hire the repair work done, and obtain estimates, etc.

In checking our file we notice the carload shipment was shipped out of San Francisco the 29th of April, 1944, and therefore, we erred in stating that the shipment arrived the 2nd of May.

Under the circumstances we ask if it would not be possible to reopen the claim.

Awaiting your instructions, we are

NATIONAL JAPANESE AMERICAN
STUDENT RELOCATION COUNCIL

1201 Chestnut St., Philadelphia, Pa.

Rittenhouse 9372

Chairman
JOHN W. NASON

National Director
ROBERT W. O'BRIEN

West Coast Director
HOWARD E. BEALE

A STATEMENT REGARDING PROGRAM AND PROCEDURE

THE NATIONAL JAPANESE AMERICAN STUDENT RELOCATION COUNCIL is a non-governmental agency organized at the request of the War Relocation Authority, and working under its general oversight, to deal with the special problem of relocating in approved colleges and universities, American-born Japanese students affected by the evacuation of all Japanese from West Coast Defense areas. The Council and its program have the endorsement and cooperation of the War Department and the United States Office of Education, as well as the War Relocation Authority.

SERVING ON ITS EXECUTIVE OR REGIONAL COMMITTEES are such leading educators as President Sproul of the University of California and Vice-President Deutsch; Chancellor Wilbur of Stanford University; President Sieg of the University of Washington; Father Dunne, President of the University of San Francisco; President Bird of Occidental College; President Mendenhall of Whittier College; Dean DeVoss of San Jose State College; Dean Baker of Fresno State College; Dean Odgers of Mulnomah College; Dean Onthank of the University of Oregon; President Nason of Swarthmore College; President Davidson of Knox College; President Sills of Bowdin College; Dean Ackerman of Columbia University; President Graham of the University of North Carolina; President Dykstra of the University of Wisconsin; President Aydelotte of the Institute for Advanced Studies; Dr. Zook, President of the American Council of Education; Dr. Snavely, Executive Secretary of the Association of American Colleges; and others.

THE COUNCIL IS SECURING FULL PERSONAL DATA concerning approximately two thousand individual students in the college group, and is working with the institutions of their former enrollment to secure transcripts and appraisals to serve as a basis of recommendation for their relocation.

A SPECIAL COMMITTEE OF EXPERTS in college administration and counselling is volunteering its services in the study and rating of this vast amount of data. Among those who are helping in this important work are Dean Hoyt of the University of California; Dean Baker of Fresno State College; Dean Homan of San Francisco State College; Dr. Eckert of Stockton Junior College; Dean DeVoss of San Jose State College; Dr. Marian Brown, Dean of the University High School, Oakland; Miss Margaret Cosgrave, Registrar of Fresno State College; Dean Voorhies of the University of California; and others of like high competence.

THE PROCESS OF RECOMMENDATION for student relocation involves several significant factors. Because it may be impossible to make the desired adjustments for all eligible students, first consideration is being given only to those in the upper brackets, scholastically, except in cases where students have already been admitted to some receiving college and have adequate funds to preclude need of scholarship aid from the Council. Each record is studied with a view to the relative importance of the completion of an academic program for the particular individual. The analysis includes such matters as professional goal, service to the Japanese community, maturity of character, evidence of successful Caucasian contacts, special interests or talents, etc., etc.

UPON THE BASIS OF THIS ANALYSIS, plus personal interviews, the placement committee will then recommend particular students to particular colleges which have evidenced their willingness to consider such enrollment. In each case, the college will be given the full data upon which the recommendation is based. Because of the complexity of the problem, and the time involved, the Council hopes that the receiving colleges will make prompt decisions on the recommendations of the placement committee, even, if necessary, waiving customary routines in order to expedite enrollment.

AFTER A STUDENT HAS BEEN TENTATIVELY ACCEPTED by a college, and financial adequacy is assured, the proposed enrollment will then be submitted to the government agencies that may be designated to handle this aspect of the total task, for investigation as to the loyalty of the student and the appropriateness of the college placement. If everything is deemed satisfactory, a certification of release will be issued to the student, who will then be permitted to leave his Center and proceed to the college or university designated, to continue his studies. Notification will also be sent to the receiving institution that the enrollment is approved by the government, together with any necessary instructions as to the circumstances of the enrollment and the status of the student.

WHEN ONCE ENROLLED AS ABOVE, the relationship between the student and the college will be normal in every way, subject only to such regulations as the government may require in special cases. The relocated student is to be considered as a regular member of the campus and the community.

THE NATIONAL JAPANESE AMERICAN STUDENT RELOCATION COUNCIL seeks the full cooperation of all collegiate institutions, universities, graduate and professional schools, in making possible for as many of these students as may be, the continuance of their education for citizenship and useful community service. In this situation we find an exceptional opportunity to demonstrate the good-will, the sense of justice, the respect for personality, and the recognition of character and achievement that are inherent in all our best traditions of American Democracy.

Agencies, groups, and individuals
who have made their services
available to Resettlers
in the
North Central Area.

U. S. DEPARTMENT OF THE INTERIOR

War Relocation Authority
226 West Jackson Boulevard
Chicago Illinois

To Resettlers and Their Friends:

We hope that this list of social and civic agencies and local committees which have signified their interest in the welfare of resettlers in this area will be helpful in a number of different ways.

First of all, the existence of local advisory committees provides convincing proof that the people in these midwestern communities know the facts of evacuation and relocation, and are appreciative of the contribution to community life which has been made during difficult war years by this groups of newcomers of Japanese descent.

Second, the directory provides resettlers with an index of community resources and services available to them in time of trouble or difficulty. The War Relocation Authority district officers have been in touch during the past three years with each agency listed; the agencies have been given information and an understanding of relocation problems which will enable them to meet the needs of resettlers in solving family, health or employment problems.

Third, we believe the directory will be helpful to community agencies and committees which continue to function in behalf of resettlers after the termination of the War Relocation Authority by helping them to know each other in order that they

may pool their resources and services.

Finally we hope that the directory will emphasize to resettlers the fact that they have a lasting place in each community and will continue to have opportunities for happiness and success in their new homes. The list is not by any means comprehensive but includes the agencies and individuals in each community whose services will be most likely to be needed. Many others have been helpful and will continue to be active in promoting fellowship and goodwill toward Americans of Japanese ancestry.

Mr. Harold Hamil
Director School of Journalism
University of Nebraska
Lincoln, Nebraska

Dear Mr. Hamil:

Miss Frances Drake, General Secretary of the Y.W.C.A. at Lincoln has suggested that I forward to you my credentials and explain a bit about my past experience.

I studied Economics at the University of California and upon graduation in 1927 entered the employe of the Dollar Steamship Lines. After several years of actual selling experience I became interested in the advertising and sales promotion end of the business eventually taking charge of their world wide advertising program. I have prepared descriptive folders, displays, newspaper and magazine campaigns, direct mail pieces, etc. I am acquainted with the production end of printing, having a thorough knowledge of different type faces and engravings. I am also interested in photography and have had a number of pictures used for advertising as well as in national magazines.

Since the termination of my work in 1939 I spent nearly two years in the Orient doing research and studying markets in India, but my stay was cut short because of world conditions.

I am enclosing photostatic copies of three reference letters and shall be glad to submit others if necessary. As for the type of work, most any kind would be acceptable in this emergency. I can also handle secretarial work...shorthand and typing. I know this is a large order but would appreciate any assistance as the military authorities want some definite assurance regarding employment before issuing travel permits.

Sincerely,

Earl Tanbara

TO WHOM IT MAY CONCERN:

This is to indicate to you that Ruth Nomura Tanbara was one of our honor students in Home Economics at Oregon State College. Ruth did not only excellent work as a student, but she won the respect and admiration of the staff and students because of her charming personality. Since her graduation she has done some excellent work in Portland and also in California. I believe her teaching and other professional experience qualify her admirably for teaching.

Very sincerely,

Ava B. Milam, Dean and
Director of Home Economics

REQUEST FOR TRANSPORTATION OF PROPERTY

Name of Evacuee: Earl and Ruth Tanbara Family Number: _____

1. I hereby request the War Relocation Authority to transport the personal property listed on the reverse side hereof from the present location, shown below, to destination, shown below, without charge to me except as set forth herein.

2. All agreements made by me herein are made in consideration of traffic services provided in connection with the transportation of my property by the War Relocation Authority, and I hereby acknowledge the value and sufficiency of that consideration.

3. I represent and warrant that I have full right to cause said property to be transported; that I am the sole owner of said property, or that I have obtained written consent to its being transported, from all other parties who have any interest in said property.

4. The property is now at: See back page, California

with transporting the property. To cover this expense I am depositing with the Authority \$ _____ under the provisions set forth in Paragraph 7.

6. In the event any of my property is perishable, or is (or becomes) contaminated or if it may lead to the contamination of other property, I authorize the Authority to dispose of such property (or any part thereof) without notice, by whatever method it chooses, without expense to me. If any proceeds are realized from the disposition of such property, those proceeds are to be remitted to me in full.

7. If any commercial property (that is, any property other than clothing, household furniture, kitchen equipment, utensils, and hand tools) is included in the list of my property on the reverse side hereof, such property is to be transported at my expense. To cover that expense, I am depositing with the War Relocation Authority \$_____. If the expense of transporting such property is less than the sum deposited, the Authority will return to me the excess on deposit; if the deposit is not sufficient to cover the expense, I agree to pay, prior to the delivery of said property at its destination, an additional sum sufficient to cover the deficiency. If I fail to make such additional deposit, the Authority is hereby authorized to sell my property or any part thereof, applying the proceeds to such deficiency and remitting the balance to me.

8. Since I have not seen my personal effects and other property for a considerable time and have no reliable inventory thereof, I hereby designate the War Relocation Authority as my agent to cause an inventory to be taken of the property which I am requesting the Authority to transport for me. I have confidence in the integrity

and good intentions of the Authority and its representatives, and I hereby agree to accept as correct subject to any claims I may make in writing within ten days of my receipt of such list, the list which will be delivered to me by the Authority to inform me what goods are being or have been transported for me.

9. I hereby release and discharge the War Relocation Authority and its employees and representatives of and from all liability whatsoever arising out of or resulting from packing, storing, transporting or otherwise handling my household and personal effects and any and all other property belonging to me or in which I have an interest.
