ANIMAL HEALTH BOARD

An Inventory of Its Annual, Biennial, and Quarterly Reports

OVERVIEW

Agency:	Minnesota. Board of Animal Health.
Series Title:	Annual, biennial, and quarterly reports.
Dates:	1904 – [ongoing].
Quantity:	1.6 cu. ft. (2 boxes).
Location:	See Detailed Description section for box locations.

SCOPE AND CONTENTS

Reports submitted by the board secretary to the governor, containing commentary on the general sanitary conditions of animals, particularly livestock, in the state and on the board's activities relating to livestock disease prevention and control. Included are those of the board's predecessors, the State Livestock Sanitary Board (1903-1964) and the Livestock Sanitary Board (1964-1980).

There are reports on major disease outbreaks and control methods employed; numerous reports and data on the testing of various animals for specific diseases; charts of the state's progress in animal disease control and prevention; and reports on disease research and results of experiments conducted. Lists of staff, financial statements, comments on new legislation, and reports of staff field trips also are included.

Reports prior to 1920 seem to contain more narrative, including minutes of quarterly meetings, with an occasional statistical chart or graph. Reports starting in the 1970s, while containing organizational charts and reports of the board's various divisions, contain less narrative and consist largely of statistical charts, graphs, and tables.
