

INVENTORY TO A MICROFILM EDITION OF  
THE MINNESOTA STATE POPULATION CENSUS SCHEDULES,

1865 - 1905

MINNESOTA HISTORICAL SOCIETY  
DIVISION OF ARCHIVES AND MANUSCRIPTS  
ST. PAUL, MINNESOTA

1977

The Minnesota State Population Census Schedules for the years 1865, 1875, 1885, 1895, and 1905 are contained on 164 rolls of microfilm. The rolls are numbered consecutively and correspond to the census years in the following manner:

1865:	Rolls 1 - 3
1875:	Rolls 4 - 19
1885:	Rolls 20 - 47
1895:	Rolls 48 - 106
1905:	Rolls 107 – 164

A county index to the entire microfilm edition of the Minnesota State Population Census Schedules, 1865-1905 lists the counties in alphabetical order and the rolls on which their schedules appear for each census year.

For each census year, three aids to the reader are included in this inventory:

an Introduction provides information about the arrangement and the contents of the Minnesota State Population Census Schedules;

a Roll List lists the counties in the order in which they appear on the film;

a Roll Contents List lists the subdivisions (townships, municipalities) enumerated within each county in the order in which they appear on the film.

MINNESOTA STATE POPULATION CENSUS SCHEDULES,  
1865-1905.

Rolls 1-3  
1865

INTRODUCTION

The Minnesota State Population Census Schedules for 1865 are arranged by county and by subdivision (township, municipality) within each county. In general, but not always, both the counties and the subdivisions are in alphabetical order. Individuals are recorded within each county or subdivision by family (household). Families are listed in the order in which they were enumerated.

For each person in residence in the family as of June 1, 1865, information is given on name; sex; whether colored, deaf, dumb, blind, insane; whether a soldier or officer in actual service of the United States as of June 1, 1865. No information is recorded on age of individual or on value of real estate. The census is not indexed by name of individual.

There are no schedules for the following counties, either because the counties were not formally organized as of June 1, 1865, or because the schedules cannot be located:

MINNESOTA STATE POPULATION CENSUS SCHEDULES,  
1865-1905.

Rolls 4-19  
1875

INTRODUCTION

The Minnesota State Population Census Schedules for 1875 are arranged by county and by subdivision (township, municipality) within each county. In general, but not always, both the counties and the subdivisions are in approximate alphabetical order. Individuals are recorded within each county or subdivision by family (household). Families are listed in the order in which they were enumerated.

For each person in residence in the family as of May 1, 1875, information is given on name; age; sex; color; place of birth (state or country); parents' place of birth; and whether deaf, dumb, deaf and dumb, blind, insane, or idiotic. The value of church property within a county or subdivision sometimes is recorded following the population enumerations. No information is given on the value of real estate of individuals. The census is not indexed by name of individual.

There are no schedules for the following counties, because they were not formally organized as of May 1, 1875:

Beltrami	Mahnomen
Clearwater	Marshall
Hubbard	Norman
Itasca	Pennington
Kittson	Pipestone
Koochiching	Red Lake
Lake of the Woods	Roseau

INTRODUCTION

The Minnesota State Population Census Schedules for 1885 are arranged by county and by subdivision (township, municipality) within each county. Many of the counties are not in alphabetical order. In general, but not always, the subdivisions are in approximate alphabetical order. Individuals are recorded within each subdivision by family (household). Families are listed in the order in which they were enumerated.

For each person in residence in the family as of May 1, 1885, information is given on name; sex; color; place of birth (state or country); whether parents are of foreign birth; whether deaf, dumb, deaf and dumb, blind, insane, or idiotic; and whether served as a soldier in the federal army during the Civil War. The value of church property within a subdivision sometimes is recorded following the population enumerations. No information is given on the value of real estate of individuals. The census is not indexed by name of individual.

There are no schedules for the following counties, because they were not formally organized as of May 1, 1885:

MINNESOTA STATE POPULATION CENSUS SCHEDULES,  
1865-1905.

Rolls 48-106  
1895

INTRODUCTION

The Minnesota State Population Census Schedules for 1895 are arranged by county and by subdivision (township, municipality) within each county. The counties are in alphabetical order. However, most of the subdivisions are not in any consistent order, either alphabetical by name (when organized) or numerical by township and range numbers (when unorganized). Individuals are recorded within each subdivision by family (household). Families are listed in the order in which they were enumerated.

For each person in residence in the family as of June 1, 1895, information is given on name; age; sex; color; place of birth (state or country); length of residence in state and enumeration district, if a male over 21; regular occupation; amount of time employed at regular occupation; whether a soldier or a sailor in the Civil War; whether parents are of foreign birth; and whether previously enumerated. No information is recorded on value of real estate. The census is not indexed by name of individual.

There are no schedules for the following counties, because they were not formally organized as of June 1, 1895:

Clearwater  
Koochiching  
Lake of the Woods  
Mahnomen  
Pennington  
Red Lake

MINNESOTA STATE POPULATION CENSUS SCHEDULES,  
1865-1905.

Rolls 107-164  
1905

INTRODUCTION

The Minnesota State Population Census Schedules for 1905 are arranged by county and by subdivision (township, municipality) within each county. Most, but not all, of the counties are in alphabetical order. Most of the subdivisions are not in any consistent order, either alphabetical by name (when organized) or numerical by township and range numbers (when unorganized). Although the census is based on the enumeration of individuals, individuals are recorded within each subdivision by family (household). Families are listed in the order in which they were enumerated .

For each person in residence in the family as of June 1, 1905, information is given on name; address; sex; age; color; place of birth (state or country); parents' place of birth; length of residence in state and enumeration district; regular occupation; and whether a soldier or a sailor in the Civil War or the Spanish-American War. No information is recorded on value of real estate. The census is not indexed by name of individual.

There are no schedules for the following counties, because they were not formally organized as of June 1, 1905:

Koochiching  
Lake of the Woods  
Mahnomen  
Pennington
