LEGISLATURE.
Reports of Interim and Special Committees and Commissions.
Item list

Processing note: Some reports have been removed from bound compilations, and their spines are no longer intact; others are dirty or otherwise in poor physical condition. Reports received from other sources, particularly prior to 1960, should be compared against this set and substituted as appropriate.

Notes to Researchers: A number of entries contain cross-references to the committee’s or commission’s records. In most cases, these are found among the consolidated set of “Records of Interim Commissions and Committees.” Records of a few committees are separately cataloged.
