One year ago this week I was campaigning in the
great Garden State with your able and distinguished Governor,
Dick Hughes. We were campaigning then for common
sense and responsibility and Progress

Garden State

Your response to that campaign was a plurality
of more than 900,000 votes for the Johnson-Humphrey
ticket.

h Pete Williams

- ✓ Brooklyn Dodgers to LA
- Wash Sen to Mrs
- ✓ Pope to Yankee Stadium

Greetings
From
ABJ

*Let's Move Forward
with the Strong & Active faith*

- 2 -

I've joined with you tonight -- one year later --
to share your support and enthusiasm for another great
Chief Executive -- my friend, Dick Hughes, and to campaign
again for common sense and responsibility, + Progress.

↳ The Hughes Administration has brought four
years of unprecedented economic growth and expansion
to New Jersey. *NJ*

↳ Your industrial output has increased by 38 per
cent, and is now third best in the nation.

↳ Personal income in New Jersey ^{has risen} ~~rose~~ by four billion
dollars. *Income*

↳ ~~New Jobs 200,000~~
~~New Industries 2000~~
New Jersey's unemployment is at its lowest level
since the end of the Korean War. *unemp low*

Four years ago, Dick Hughes pledged that he would
promote new industry, encourage small business, and
develop a bigger and better tourist trade for this state.

709,000 new jobs
2,000 new
industries

Trade mission
away

L Governor Hughes kept those pledges.

L Dick Hughes pledged to help each New Jersey
citizen gain a fuller share in our prosperity.

L And Governor Hughes, I'm proud to say, was the
first Governor in the Nation to join President Johnson's
war against poverty and establish a state Office of Economic
Opportunity.

Dick Hughes pledged to do more for education...to
expand the capacity of Rutgers, to provide more vocational
and technical training opportunities, and establish a
new junior college program.

Educ

N. J. #1
War
on
Poverty

Four years later, New Jersey has medical schools for the first time in its history -- at Rutgers and Seton Hall. State college scholarships have been increased 400 per cent and a new system of two-year community colleges has been established. And last year, 37,500 persons enrolled in state vocational and technical training programs.

med
school

The Hughes Administration is trying to achieve here in New Jersey what the Johnson Administration is trying to achieve for all America: a state of opportunity where each American citizen -- and each American community have a chance to make tomorrow better than today.

State of
opportunity

And, if you will look at the record of the 89th Congress, you will agree that we are moving forward toward that goal.

89th
Cong

Edna
Health

✓ The 89th Congress has produced the greatest legislative record of modern times.

89th
Cong.

✓ But it has been twelve long and frustrating years since New Jersey has had a Governor and legislature of the same party.

12 yrs

✓ Governor Dick Hughes must have a legislature responsive to his leadership just as the United States Congress has responded to the leadership of our President.

+ Cooperate
with
Fed Gov

✓ Republican obstructionism has been costly to the people of this state.

✓ Republicans shaved four million dollars off the Governor's five million dollar water pollution bill to develop regional sewage disposal treatment facilities.

✓ Republicans voted down the Governor's air pollution bill that would make it mandatory to install filters on automobile exhausts.

↳ And Republicans have remained firmly opposed to any fair housing legislation.

↳ These Republicans have said no to you and your state's future.

↳ Dick Hughes has been in public life for 32 years. He has been a distinguished jurist, a devoted civic leader, and an energetic political organizer.

*Dick Hughes
32 yrs
in Public
Service*

↳ He knows New Jersey. And he knows how to get things done. He must have the chance to translate his experience and convictions into progressive legislation.

*Elect
Legisl*

↳ And you can give him this chance on November Second by working to put into office the men who will support him in your legislature...such state senators as

Jerry O'Connor, Ned Parsekian, Matty Feldman, and Al ^{Kiefer} Kiefer, and your seven candidates for the Assembly from this district.

You did this for President Johnson last fall. You sent to the Congress able and articulate new Congressmen --

Tom McGrath... Jim Howard... Paul Krebs... and Henry

Helstoski. — Pete Rodino, Joe Menendez, Frank Thompson,
Charles Galanter, Neil Gallagher,
Dominic Daniels,
Ed Patton

These new men have said yes to America's future.

Today, the American people are united as never before. We are united in our determination that all

Americans shall have a chance to obtain a good education -- and we are seeing to it that they do.

We are united in the conviction that every citizen shall be able to vote. And Congress has translated this desire into the law of the land.

We are united in our concern for obtaining good medical care for our parents. And we have just passed the most sweeping expansion of health care benefits, and the greatest expansion of welfare benefits, in thirty years.

Pete
is
Dean

We are
United
People

✓ We all want our cities to be better places in which to live and work...and we want to preserve our country's beauty and natural resources. And we are doing something about it.

✓ We are united, too, in our dedication to a world of peace and freedom and security.

✓ The vast majority of this Administration's legislative program has become law...not just because we possess large majorities in Congress, but because the proposals for that program -- health, education, equal rights and opportunity for all our citizens -- are what the American people want.

✓ We Democrats believe in the politics of hope. We believe that every American should have the opportunity to lead ^auseful and productive lives.

Politics
of
Hope

and, We are optimists. We offer hope because we believe it is possible to better the human condition. We believe in discarding what doesn't work and finding what does. We are not afraid of idealism or of change. We choose the future, not the past.

My friends, four years ago New Jersey chose the future when Dick Hughes was elected your Governor.

Work today not only for Dick Hughes, but for the legislature he needs to carry out his proposals -- a legislature that says "yes" to the people instead of "no."

New Jersey needs Dick Hughes. New Jersey needs a Democratic legislature. And with your help and support New Jersey will vote "yes" to its future on November second.
