Dear Jerome,

There was not enough time the other day, to tell you how very impressed I was with both your films, and how delighted with everything - the spirit in which the shots were taken, the beauty of all of them, the combination of - mind - and mastery of tools..

I have rarely seen any film which was so completely satisfactory to me.. as only - right - things are.. I am more than happy that it is you, who will have the Grandma Moses film in hand, because it gives me all assurance that you will handle it the way it should be handled.. the right way. And I also know, with this assurance that there will be many many people who will feel about it, as I felt seeing your work. I only wish you could have been with me when I took my shots.. I know now, that they would be more beautiful and interesting... but...since that is too late, I mean the main part of the shooting over, we still can do the best possible with it and may be add.. when the time comes.

I am very grateful you let me come and bring a friend, the other day.. Barbara too, felt deeply moved over the seeing eye film and " lifted " over the snow flight..

Thank you,!

*Erica.*
